Test Path to make sure it works

ADDITIONAL INFORMATION

Please Remember that the main path of the application is

(Drive Letter or Path)… \ANTF Server\ANTF CodeVault

                            Main Folder   Sub Folder (Plus its Folders)

If its in a root folder it will loom like A: or B:….. So on
A:\ANTF Server\ANTF CodeVault

If it's a custom path it will look like:
A:\NetworkDept\Sharing\ANTF Server\ANTF CodeVault

To Manually edit the DrivePath, edit it in NotePad in the following Location and Save, then Re-Launch The Application
C:\ANTF Group\ANTF Server Client Connections\CVDL - Do Not Delete.aspf
